

Tips When Ordering Turf/Sod

- Measure up area at least twice when possible.
- Order extra, but do not get carried away for we are only a few minutes away.
- Give at least 24-hour notice whenever, we cut to order.
- Have ready: address, cross streets, job site phone number, cell phone number.
- Leave message with amounts, day and phone number, so we can start planning.
- Plan a few days ahead, sod is like concrete: when truck arrives, be ready.
- Always use a preplant fertilizer, always under sod if only on surface of soil.
- Always try to roll again before mowing.

CUESTA HIGHLAND..... .55c /sq. Ft.

Blend of turf type tall fescues. Has high tolerance to wear, shade, and disease. Its dense, deep extensive root system enables it to tolerate heat and drought problems better. Excellent choice for high use, commercial, and large residential areas.

BONSAI/BLUEGRASS..... .58c /sq. Ft.

Has same characteristics as Cuesta Highland, but with a finer blue grass, type leaves. Also needs less mowing. Good choice for homeowner who likes the finer look with heat, drought, and wear tolerance.

CALIFORNIA NATIVE BENTGRASS..... .90c /sq. Ft.

Local native cool season grass with rhizome root. Goes dormant in summer, always comes back with water or winter rains.
